Core Features

- Product browsing by category and filters
- Cart management with quantity updates
- Cash on Delivery checkout
- Customer account and order history
- Customer support tickets with FAQ
- Admin dashboard and product management
- Admin support inbox for triage and resolution
- Variant and inventory-oriented product forms Light
- and dark theme support

Shopping Flow

API Scope Summary

- Public: products, categories
- Authenticated: cart, checkout, orders, profile, support tickets
- Admin: dashboard, products, variants, order operations, support inbox

Notes

- Clerk manages authentication in frontend.
- Laravel verifies Clerk JWT and resolves/creates local users.
- Admin and customer routes are role-protected.
- Support emails are delivered via Resend using backend env variables.
